WORK EXPERIENCE

Laboremus Uganda, Kampala, Uganda - *Full Stack Developer Internship*

A Digital fintech company in Kampala Sept 2024 - Present

- Designed and implemented a Payment Automation System for workers to submit their expense claims to the approvers so as to be paid automatically
- Designed the User Interface to make sure that users can engage with it easily
- Designed and implemented secure two-factor authentication
- Implemented state management solutions using React's Context API and Redux to enhance data flow and maintainability.

Kanzu Code, Kampala, Uganda - *Front-end Developer Internship*

A Digital Fintech company in Kampala April 2024 - August 2024

- Developed and maintained responsive web applications using React.js, JavaScript, and modern UI libraries to enhance user experience.
- Collaborated with designers and backend developers to implement pixel-perfect UI designs and integrate APIs for seamless functionality.
- Optimized web applications for performance, accessibility, and cross-browser compatibility, ensuring a smooth user experience.
- Utilized Git and GitHub for version control, managing code repositories and contributing to a collaborative development workflow.
